CONTENTS

Chapter One Overview of the development of construction industry in China 1

Section One The development of construction industry 1

First, the development of construction industry 1

Section Two Analysis on the economic indicators in the construction industry of China in recent 3-5 years 2

First, productiveness 2

Second, the growth rate 3

Third, the space of added value promotion 3

Fourth, entry barriers /exit mechanism 3

Fifth, risk 4

Sixth, life cycle 4

Seventh, the indicators of competitive level 5

Eighth, judgment on the current development stage of the cycle 6

Section Three Analysis on the development of associated industry 6

Chapter Two Comparative analysis on construction industry of China and International 8

Section One Analysis on the competitiveness indicators of China ' s construction industry 8

Section Two International comparative analysis on the economic indicators of China ' s construction industry 8

Section Three Market demand analysis on global construction industry 9

First, current market size 9

Second, analysis on the demand structure 9

Third, the key customers 9

Fourth, the market prospect 10

Section Four Analysis on the market supply of global construction industry 10

First, the current situation of production scale 10

Second, the distribution of production scale 10

Third, analysis on the main countries 10

Fourth, the distribution of key vendors 11

Chapter Three Analysis on the supply and demand of industry 13

Section One Analysis on the requirements 13

First, the construction industry market demand 13

Second, the structure of construction industry 15

Third, the regional differences in demand for construction industry 20

Section Two Supply analysis 20

Section Three Analysis on the balance of supply and demand, and the future development trend 22

First, forecast of the construction industry demand 22

Second, forecast of the construction industry supply 23

Third, analysis on the balance of supply and demand 23

Fourth, forecasts of the balance between supply and demand 25

Section Four Analysis on the development of construction sub-industry 25

Chapter Four Analysis on the building industry chain 29

Section One Industry concentration 29

Section Two Introduction of the industry chain 29

Section Three Barriers and driving factors of industry entry 30

Section Four The impact of upstream and downstream industry and trend analysis 31

Chapter Five The study on the depth of the regional construction market 37

Section One Analysis on the construction market in Yangtze River Delta region 37

Section Two Analysis on the market of the Pearl River Delta region 38

Section Three Analysis on the market in Bohai rim economic zone 39

Section Four Research on the development and competitiveness of the main regional market in the construction industry 40

First, the regional market in North China 40

Second, the regional market in central China 41

Third, the regional market in South China 41

Fourth, the regional market in East China 41

Fifth, the regional market in Northeast China 41

Sixth, the regional market in Southwest China 42

Seventh, the regional market in Northwest China 42

Chapter Six Forecast of and analysis on the demand in the construction industry, 2012-2016 43

Section One Prediction of the demand of the construction industry, 2012-2016 43

Section Two Prediction of the function of products (services) demanded in construction industry, 2012-2016 43

Section Three Prediction of the market structure of products (services) demanded in construction industry, 2012-2016 44

Chapter Seven Analysis on competition pattern of the construction market 46

Section One The competition structure in the construction market 46

First, competition between the existing enterprises 46

Second, potential entrants 46

Third, threats of alternatives 47

Fourth, bargaining ability of suppliers 47

Fifth, bargaining ability of buyers 47

Section Two Industry concentration 48

First, market concentration 48

Second, enterprise concentration 48

Third, regional concentration 48

Section Three Comparison of international competitiveness of construction industry 48

First, factors of production 48

Second, demand conditions 49

Third, Related and supporting industries 49

Fourth, enterprise strategy, structure and competition 49

Section Four Competitive pattern in the construction industry 51

First, competition in construction industry, in 2011 52

Second , competition in construction industry at home and abroad, in 2011 52

Third, competition of the construction market in China, in 2011 53

Chapter Eight Analysis on Ranking of main construction enterprises and industrial structure 55

Section One analysis on the ranking of industrial enterprises 55

Section Two Analysis on the industrial structure 55

Section Three Analysis on the structure and competitive advantages of industrial value chain 57

First, the composition of industrial value chain 57

Second, competitive advantages and disadvantages of industrial chain 58

Section Four Forecast of the development of industrial structure 59

First, the industrial structure adjustment and industrial policy of the government 59

Second, consumer demand in the adjustment of industrial structure 60

Third, Strategies for China's construction industry to participate in the international competition 60

Chapter Nine Analysis on the top leading enterprise 63

Section One China Railway Construction Corporation Limited (CRCC) 63

First, the main business and the operation 63

Second, the production scale, sales scale, profit over the past years 63

Third, the main market positioning 67

Fourth, the main advantages and disadvantages 67

Fifth, strategies and means of market development 67

Section Two China State Construction Engineering Corporation Limited 68

First, the main business and the operation 68

Second, the production scale, sales scale, profit over the past years 68

Third, the main market positioning 72

Fourth, the main advantages and disadvantages 72

Fifth, strategies and means of market development 72

Section Three China Communications Construction Company Limited (CCCC) 73

First, the main business and the operation 73

Second, the production scale, sales scale, profit over the past years 74

Third, the main market positioning 74

Fourth, the main advantages and disadvantages 74

Fifth, analysis on the market development strategy and measure 74

Section Four Shanghai Construction Group (SCG) 75

First, the main business and the operation 75

Second, the production scale, sales scale, and profit over the past years 75

Third, the main market positioning 80

Fourth, the main advantages and disadvantages 80

Fifth, strategies and means of market development 80

Section Five Beijing Urban Construction Group CO., LTD (BUCG) 81

First, the main business and the operation 81

Second, the production scale, sales scale, profit over the past years 82

Third, the main market positioning 86

Fourth, the main advantages and disadvantages 86

Fifth, strategies and means of market development 87

Section Six Beijing construction engineering group 87

First, the main business and the operation 87

Second, the production scale, sales scale, profit over the past years 87

Third, the main market positioning 88

Fourth, the main advantages and disadvantages 88

Fifth, strategies and means of market development 89

Section Seven Zhejiang Construction Investment Group Co., LTD 89

First, the main business and the operation 89

Second, the production scale, sales scale, profit over the past years 89

Third, the main market positioning 89

Fourth, the main advantages and disadvantages 89

Fifth, strategies and means of market development 90

Section Eight Chongqing Construction Engineering Group Corporation Limited 90

First, the main business and the operation 90

Second, the production scale, sales scale, profit over the past years 90

Third, the main market positioning 91

Fourth, the main advantages and disadvantages 91

Fifth, strategies and means of market development 91

Section Nine Hunan Construction Engineering Group Corporation 92

First, the main business and the operation 92

Second, the production scale, sales scale, profit over the past years 92

Third, the main market positioning 92

Fourth, the main advantages and disadvantages 92

Fifth, strategies and means of market development 93

Section Ten Chengdu Construction Engineering Group Corporation 93

First, the main business and the operation 93

Second, the production scale, sales scale, profit over the past years 94

Third, the main market positioning 94

Fourth, the main advantages and disadvantages 94

Fifth, strategies and means of market development 94

Chapter Ten Analysis on the overall operating indicators of the construction industry in China in 2011 96

Section One Analysis on the overall size of construction industry in China 96

First, analysis on the structure of enterprise number 96

Second, analysis on the size of industry 96

Section Two Analysis on the production and marketing of construction industry in China 97

First, general analysis on the output value of the industry 97

Second, general analysis on sales revenue of the industry 97

Section Three Overall analysis on the financial indicators of construction industry in China 98

First, profitability of the construction industry 98

Second, debt-paying ability of the construction industry 98

Third, the performance of the construction industry 99

Fourth, the development ability of the construction industry , 99

Chapter Eleven The key trends that affect the production and operation of enterprise 101

Section One The growth trends of market integrated 101

Section Two Forecast on the trends of changes and the demand for new business opportunities 102

Section Three The trend of regional market development 103

Section Four Trends of scientific research and progress of the alternative technology 104

Section Five SWOT analysis of construction enterprises in China 105

Chapter Twelve Valuation of investment in construction industry, 2012-2016 110

Section One The advantageous and disadvantageous factors influencing industrial development 110

Section Two Gaps of the development of the construction industry 112

Section Three Investment orientations which have a higher return 113

Section Four Hindering factors which new entrants should be noted 115

Section Five Market analysis and recommended marketing mode 117

CHART CONTENTS

Chart: The national statistics of profit level of construction industry in 2011 2

Chart: The added value and growth rate of construction industry, 2006-2011 3

Chart: Life cycle of construction industry 4

Chart: Analysis on the life cycle of construction industry 5

Chart: The income of China's construction enterprises, 2009-2011 13

Chart: Signed contract cost and growth of construction enterprises, 2007-2011 14

Chart: Annual new starts area and growth in construction industry, 2006-2011 14

Chart: Sales area and growth of China's commercial property, 2007-2011 15

Chart: Land development, house construction and sale of real estate in China, 2010-2011 17

Chart: Sales area and its growth rate of China, 2007-2011 17

Chart: The freight volume and growth rate completed by all modes of transport in 2011 18

Chart: Passenger traffic and growth rate by all kinds of transport in 2011 19

Chart: Gross output value of construction industry, 2006-2011 20

Chart: The investment in real estate development of China, 2006-2011 21

Chart: The new contract amount, total signed contract amount and production output, 2006-2011 24

Chart: The area of construction, new construction and completed of building construction enterprise, 2007-2011 25

Chart: The main indicators performance and growth of real estate development and sales in 2011 26

Chart: Construction industry chain 30

Chart: Investment in real estate development since 2006 34

Chart: Investment in the fixed assets of traffic since 2007 35

Chart: Gross output value of Construction industry in North China, in 2011 41

Chart: Gross output value of Construction industry in Central China, in 2011 41

Chart: Gross output value of Construction industry in South China, in 2011 41

Chart: Gross output value of Construction industry in East China, in 2011 41

Chart: Gross output value of Construction industry in Northeast China, in 2011 42

Chart: Gross output value of Construction industry in Southwest China, in 2011 42

Chart: gross output value of Construction industry in Northwest China, in 2011 42

Chart: The top 10 enterprises in construction industry, in 2011 55

Chart: The value chain model of Construction enterprises 57

Chart: The performance of CRCC (by industrial structure) in 2011 63

Chart: The performance of CRCC (by areas) in 2011 64

Chart: Debt paying ability of CRCC, 2011-2012 64

Chart: Capital structure of CRCC, 2011-2012 64

Chart: Operating efficiency of CRCC, 2011-2012 65

Chart: Profitability of CRCC, 2011-2012 65

Chart: Development ability of CRCC, 2011-2012 66

Chart: Cash flow of CRCC, 2011-2012 66

Chart: Income on investment of CRCC, 2011-2012 67

Chart: The performance of China State Construction Engineering Corporation Limited in 2011 (by the industrial structure) 68

Chart: The performance of China State Construction Engineering Corporation Limited in 2011 (by areas) 69

Chart: Debt-paying ability of China State Construction Engineering Corporation Limited, 2011-2012 69

Chart: Capital structure of China State Construction Engineering Corporation Limited, 2011-2012 69

Chart: Operating efficiency of China State Construction Engineering Corporation Limited, 2011-2012 70

Chart: Profitability of China State Construction Engineering Corporation Limited, 2011-2012 70

Chart: Development ability of China State Construction Engineering Corporation Limited, 2011-2012 71

Chart: Cash flows of China State Construction Engineering Corporation Limited, 2011-2012 71

Chart: Income on investment of China State Construction Engineering Corporation Limited, 2011-2012 72

Chart: The performance of SCG in 2011 (by the industrial structure) 75

Chart: The performance of SCG in 2011 (by product structure) 76

Chart: The performance of SCG in 2011 (by areas) 76

Chart: Debt-paying ability of SCG, 2011-2012 77

Chart: Capital structure of SCG, 2011-2012 77

Chart: Operating efficiency of SCG, 2011-2012 78

Chart: Profitability of SCG, 2011-2012 78

Chart: Development ability of SCG, 2011-2012 79

Chart: Cash flow of SCG, 2011-2012 79

Chart: income on investment of SCG , 2011-2012 79

Chart: The performance of BUCG in 2011 (by the industrial structure) 82

Chart: The performance of BUCG in 2011 (posed by product) 82

Chart: The performance of BUCG in 2011 (posed by areas) 82

Chart: Debt-paying ability of BUCG, 2011-2012 83

Chart: Capital structure of BUCG, 2011-2012 83

Chart: Operating efficiency of BUCG, 2011-2012 84

Chart: Profitability of BUCG, 2011-2012 84

Chart: The development of BUCG, 2011-2012 85

Chart: Cash flow of BUCG, 2011-2012 85

Chart: Income on investment of BUCG, 2011-2012 86

Chart: The number of enterprises in the construction industry, 2006-2011 96
